Smart Irrigation Controllers for smaller farms

The Dcon Ag M1 PRO is a compact and intelligent irrigation controller designed for small-scale farms. It automates irrigation scheduling and Pump ON/OFF with helping farmers save time, water, and labor. With sensor integration, GSM-based remote access, and robust safety features, it ensures reliable performance in Indian agricultural conditions.

DCON AG M1 PRO

MSU Motor starter unit

Benefits & features

Benefits & features

Suitable for all size of farm area

Supports cycle timer, clock timer, run timer, motor run timer, and auto mode for flexible scheduling.

Compatible with water level indicators for automated tank level monitoring and alerts.

Built-in safeguards against dry run, low run, high voltage, and low voltage to protect the motor.

Supports direct connection of pressure sensors and pulse flow meters for real-time monitoring.

Onboard display for easy configuration

It comes with a inbuilt SIM Card for hassle free use

Technical Specifications

Irrigation & Control Specifications

Specification Category	Details
Pump Control	Control upto one Motors
Sensor Support	Pressure sensor, Water Level Sensor, Pulse flow meter
Timers	Clock Timer, Cyclic Timer, run timer & motor run timer
Display	Onboard Display
Network Support	GSM/ BLE5.0/ Wifi

Communication Specifications

Specification Category	Details
Communication	GSM, IoT Enabled
Protection Features	Flow-Based Dry Run, Overload, Voltage Protection.
Voltage Monitoring	Yes
Current Sensing	Yes

Real-time farm image

Manufactured by

Mobitech Wireless Solution Private Limited

#1/4, Vengamedu, Erode Road, Perundurai, Tamilnadu, India - 638052.
