

WIRED - TIME BASED IRRIGATION AND FERTIGATION AUTOMATION SYSTEM

General Features

- Automatic Pump Control
- Single Pump Control Capacity
- Pump Relay Compatibility
- VFD Pump Drive Control
- Irrigation Solenoid Valve Control (**T51** for 5 Valves & **T121** for 12 Wired Valves)
- Rain Detection (**Sensor Extra**)
- Fertigation Timer Control
- Onboard Display for Easy Operation
- Bluetooth Connectivity
- User-Friendly Interface

Modes & Fertigation

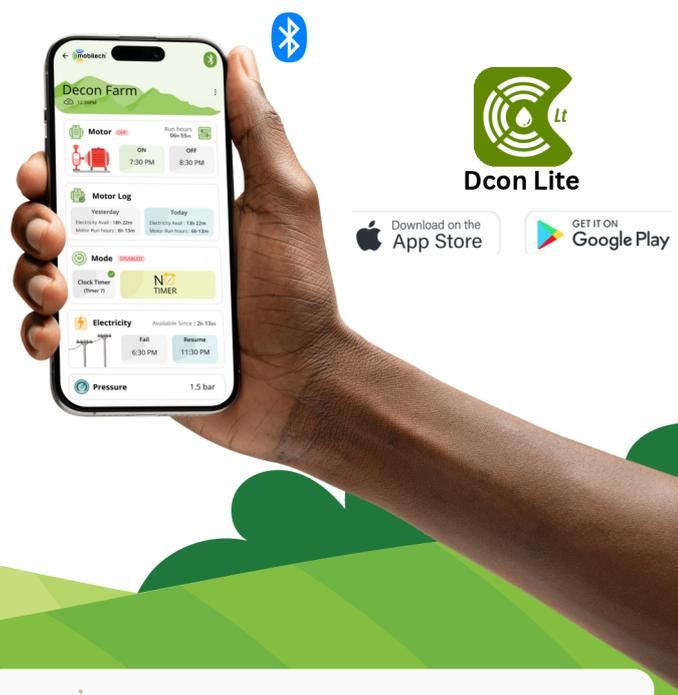

- Cyclic Timer
- Cyclic Timer with Fertigation
- Clock-Based Timer
- Fertigation Control Capacity: 1 Channel
- Current-Based Dry Run Protection
- Current based flow detection

Specifications

- Power Source Type: AC
- Voltage: 230V AC 50Hz
- Current Sensing Capability: Yes
- AC Solenoid Coil Voltage: 24V AC
- AC Solenoid Coil Current: 100-400mA

Connectivity & Technology

- Bluetooth Connectivity
- Bluetooth Enabled Mobile app
